January 2012 Presidents Message:

It is hard to believe that we are starting a new year, the last year flew by so fast. I am looking forward to having a few months to work on my cars and get them ready for a new season of touring. Last year brought us some amazing tours and I know this year will be just as exciting. One thing I would like to stress for our new touring season is safety. Please take an extra look at your car and make sure everything is safe. While you are putting the tire dressing on, give those wood wheels an extra shake and make sure they are tight. We have a wonderful club with amazing people and I would like to make sure we are all safe. Most of our cars are 90 years old and some are even 100, at this age they warrant an extra look. If you are not sure about something, give another club member a call. Our members are very knowledgeable and they can help you if you have a question.

Joan and I are really looking forward to the 2012 tour season and hope to see you out on our club tours. What a wonderful way to show your pride in America. The Model T is truly made in the USA, that is something that is hard to find today. I would like to see what a Toyota will look like at 100 or if it is running at all. Our Model T's give a whole new meaning to the saying "My baby is American made".

SPECIAL T TOOLS

This month's tool is a rear axle bearing sleeve remover that was available from Ford dealers back in the 1920's. The picture on the left shows a lever at the top right which activates a cammed plug into the hole in the sleeve. Once the sleeve is captured, the sleeve is removed by turning the crank against the axle as shown in the picture on the right This special tool makes quick work of removing bearing sleeves. NEAT!

The Calendar Car

January, snow and ice,
Crank my Ford and in a trice,
Into town, and though some chilled
With the joy of living filled.

February, slush and mud
March winds, tingling April's bud
The old car feels the pulse of Spring
Seems to make the motor "sing".

And through summer's sultry days,
Loafing, playing, 'till the haze
Of golden autumn fills the air,
Our good Ford takes us everywhere.

A coat of paint from Santa Claus,
And there, a New Year without pause;
I cherish thee, good pal thou are
My little Ford, the "all year" car!

Thanks to all who worked to make the Christmas party at Quail Inn a success. The Mazzucchi's, the Newlin's and the Jones were the committee that put it all together. Dale McCoy provided wines which were wonderful and Christopher played the piano. Another year to celebrate and looking forward to 2012. It's hard to believe, but all the lovely ladies, dressed to the nines, are the same gals that ride in our wonderful Model T's bundled against the weather and providing food and drink for the tours. The men aren't bad either!
